CONFLICT MINERALS COMPLIANCE STATEMENT

The 2010 Dodd-Frank Wall Street Reform and Consumer Protection Act, Section 1502, and the Securities and Exchange Commission Rule adopted August 22, 2012 require certain corporations to report the use of “conflict material that originate in the Democratic Republic of the Congo (DRC)” when these conflict materials are used in the manufacture of their products. Conflict Material are generally, cassiterite (tin), wolframite (tungsten), coltan (tantalum), gold ore /or their derivatives, that originate from Eastern Congo (DRC).

Control Flow, Inc. (CFI) is a privately held corporation and is not subject to the “Conflict Minerals” rules and reporting requirements. However, we understand that our customers may be required to adhere to these rules and are committed to assisting them in complying with their reporting requirements.

To accomplish this, we survey our suppliers on a regular basis and advise them via our purchase order system that we will not accept or utilize materials or components that contain any “Conflict Minerals”. Based upon our supplier surveys and contacts, we have determined that our suppliers do not use any covered “Conflict Materials” in the material or components supplied to CFI. Therefore, to the best of our knowledge, our manufactured and supplied products do not contain any “Conflict Minerals” as defined by Section 1502, para. (e)(4) of the Dodd-Frank Wall Street Reform and Consumer Protection Act.

Control Flow, Inc. will continue to work with our suppliers, keeping them informed of our policy regarding the use of “Conflict Minerals” and to avoid any such use in our products. Should any change in this statement occur based upon new information or developments within our supplier base, we will immediately advise our customers.

Please direct any questions regarding this statement to Control Flow, Inc.
